INTRODUCTION.

WE have the pleasure to hand you herewith our Catalogue of Drugs and Druggists' Articles for 1880, carefully revised to date.

We beg permission to take advantage of this opportunity to present briefly the following facts upon which we rely for the extension of our business, as well as for the retention of the large trade we now have.

1. *Our stock of DRUGS, CHEMICALS, AND ESSENTIAL OILS is carefully selected, and will compare with that of any house in the country.*

2. *In PROPRIETARY MEDICINES we can compete successfully with houses making them a specialty.*

3. *We have a large and fine stock of FANCY GOODS AND DRUGGISTS' SUNDRIES, and invite competition with establishments doing an exclusively fancy goods business.*

4. *Our stock of WINES AND LIQUORS is selected with a view to supplying the wants of druggists, and, in extent and variety, is fully equal to the demands of the trade.*

5. *We invite the most critical examination of every article sent out by us, and cheerfully submit to comparison with other houses.*

If we have not had the pleasure of doing business with you, in order to test the soundness of our claims, we respectfully request you to make us the depot for your supplies for one, two, or more months, stipulating that you include all departments as fully as possible, the business relations thus established to be *terminated at your pleasure*, with our assurance here given that all purchases made to said termination (in the event of your desiring to close business relations with us) *shall be adjusted to your entire satisfaction.*

We guarantee the quality of every article sent out, careful attention to details, prompt shipment, and the lowest prices current in this market. We are willing to do faithful work for small profits and prompt monthly settlements.

We feel assured that most druggists will concentrate their trade where such opportunities are offered, and in the hope that you may be induced to make trial of the facilities enjoyed by our house for the satisfactory transaction of business, we cordially solicit your orders.

We remain very truly yours,

Boston, April, 1880.

This new preparation deserves special attention. It represents the entire Alkaloidal strength of Cinchona Bark, with the exception of a portion of Quinine, which is separated to reduce the cost, while its superior efficacy as a Tonic and Antiperiodic is indicated by the fact that the dose should not exceed that of Sulp. H. A. TUCKER, M. D.

Boston, July 28, 1879.

DEAR SIR:—I desire very much to say a good word for your "No. 59" Compound, as it has been used by my family for the past nine years, and we consider it to be a most indispensable article for the medicine closet. Indeed, I hardly see how we could get along without it.

Yours, &c.,

A. A. FOLSOM, 97 Appleton St.

Office of Dr. Kennedy's Medical Discovery, 234 Warren St.,
DR. H. A. TUCKER, Brooklyn, N. Y.

ROXBURY, MASS.

DEAR SIR:—For the past fourteen years your "No. 59" Compound has been our family standard medicine for the numerous aches and pains to which we are always subject, and our experience teaches us it has no equal. I am acquainted with many remedies in the medicine line, but I do not think, were I to search from the Atlantic to the Pacific, I could find an equal to your "No. 59" Compound; I think its true merits will eventually take it around the world.

Respectfully yours,

L. C. FISHER.

DR. H. A. TUCKER, Brooklyn, N. Y.

Boston, Oct. 15, 1879.

DEAR SIR:—No person can more cheerfully and gratefully testify to the wonderful medicinal properties of your "No. 59" Compound than myself and family. We have used it for more than three years, and it is now, together with the Fever Drops No. 64, our almost only remedy for any ill. I never travel without it, and I keep it at my place of business as well as in my house.

Truly yours,

A. J. ADAMS.

The Simplest, Cheapest and most Satisfactory
MARKING APPARATUS,
 FOR COTTON, SILK, WOOLEN AND LINEN, IS

Used with BRIGGS' ORIGINAL MARKING PEN, or any common pen, without a preparation

The Ink flows perfectly; will write as easily on the finest muslin as ink on paper. It does not dry up, and retains its virtues longer than any other ink known. It will not injure the finest fabric. Payson's Ink has endured the test of forty years, and is still the popular ink, unrivalled for uniformity of quality and durability. It is much cheaper in first cost than stencil plates, hand stamps and other sensational arrangements with their uniformly worthless inks; and will mark for one person or a whole family more neatly, quickly, and indelibly than any other apparatus. Unlike the so called Indelible Pencils, it requires absolutely *no preparation* of the fabric, or constant sharpening. Payson's Ink will mark finer and neater than a pencil, and with a blacker and more indelible mark. One vial of ink will mark more articles in less time and with less trouble than any pencil yet invented.

NOTE.—Purchasers and consumers of Payson's Indelible Ink will please inquire for and see that they get the *genuine*, as worthless inks are frequently sold upon the merits, and sometimes in the name of Payson's, to the great loss and injury of the consumer.

BRIGGS' MARKING PENS.

Are superior to any Gold, Steel or Quill Pens for marking, because there is no split in the point to catch and spatter. They are not liable to blot, and are made of material that cannot corrode or wear out. They are superior to any Stamp or Stencil Plate, because you can write any name or word you wish to; mark for one or all the family—it will be in your own handwriting; you can do it neater and quicker, and use Ink that you know is reliable.

These Pens are the **only article in the world** with which coarse fabrics, such as hose and towelling can be neatly, quickly and indelibly marked.

These Pens are put up in our **Patent Case**, which completely protects the point. One pen will last a lifetime.

BEWARE OF IMITATIONS.

There are worthless articles in the market, put forth by unscrupulous parties to take advantage of our reputation. Be sure that the name "**Briggs**" is on every label.

Payson's Indelible Ink and Briggs' Marking Pen Combined.

Attention is especially called to this **combination**, which meets a long-felt need for a complete marking apparatus. The case is convenient, portable, always ready for use, and completely protects both pen and ink from loss or injury by evaporation or breakage.

For sale at wholesale and to the trade by the General Agents for Payson's Ink.

CONSUMPTION,

AND EVERY AFFECTION OF

THE THROAT, LUNGS AND CHEST.

Wistar's Balsam of Wild Cherry is acknowledged by many prominent physicians to be the most reliable preparation ever introduced for the RELIEF and CURE of the above complaints, and is constantly used by them in their practice. A well-known physician writes, "*It does not dry up a cough and leave the cause behind, as is the case with most preparations, but loosens it, cleanses the lungs, and allays irritation, thus removing the cause of the complaint.*"

PERUVIAN SYRUP,

A PROTECTED SOLUTION OF THE PROTOXIDE OF IRON,

Is as easily digested and assimilated with the blood as the simplest food. When the blood does not contain the usual quantity of Iron, the deficiency can be supplied by the use of Peruvian Syrup. It cures "a thousand ills" simply by **Toning up, Invigorating and Vitalizing** the system. The enriched and vitalized blood permeates every part of the body, repairing damages and waste, searching out morbid secretions, and leaving nothing for disease to feed upon. This is the secret of the wonderful success of the remedy in curing

Dyspepsia, Liver Complaint, Dropsy, Boils, Chronic Diarrhœa,
 Nervous Affections, Female Complaints,

And all diseases originating in a bad state of the blood, or accompanied by debility, or a low state of the system.

MERCHANT'S GARGLING OIL LINIMENT.

Yellow Wrapper for Animal and White for Human Flesh.

"Whether for use on man or beast, Merchant's Gargling Oil will be found an invaluable Liniment, and worthy of use by every resident in the land. We know of no proprietary medicine or article now used in the United States which shares the good will of the people to a greater degree than this. Yellow wrapper for animal and white for human flesh."—*New York Independent*.

MERCHANT'S GARGLING OIL AS A FAMILY LINIMENT.

We are now, and have been for some years, preparing the Oil free from stain, to be used as a common liniment for human flesh, extracting the coloring ingredient which has heretofore rendered it objectionable. This Oil possesses all the medicinal properties of that prepared with the dark tinge for horse and cattle, and will be found one of the best remedies for all purposes where a liniment is required that has ever been manufactured.

From J. K. Fisher, Uniontown, Pa., Jan. 31, 1857.—"Your Gargling Oil is doing much better here than formerly, since its virtues have become known; and the bottles put up for family use, without stain, are much sought for."

The Gargling Oil called "Family Oil," although prepared intentionally for human flesh, answers as well for beasts; *vice versa*, the dark Oil answers as well for human flesh, only it will stain and discolor the skin, but not permanently. Yellow wrapper for animal and white for human flesh.

GARGLING OIL LINIMENT AS AN INTERNAL REMEDY.

Merchant's Gargling Oil is a diffusible stimulant and carminative. It can be taken internally when such a remedy is indicated, and is a good substitute for pain killers, cordials and anodynes. For Cramps or Spasms of the Stomach, Colic, Asthma or Internal Pain, the dose may be from fifteen to twenty drops, on sugar, or mixed with syrup in any convenient form, and repeated at intervals of three to six hours. Yellow wrappers for animal and white for human flesh.

Merchant's Gargling Oil is the Standard Liniment of the United States. Established 1833. Large size, \$1.00; medium, 50c.; small, 25c.; small size for family use, 25c. Manufactured at Lockport, N.Y., by M. G. O. Co., and sold by all druggists.

FLUID MAGNESIA,

PREPARED BY

S. O. DUNBAR,
TAUNTON, MASS.

Superior to any, English or American.

A DIPLOMA was awarded to this Magnesia by the American Institute in 1852.

This very useful and elegant preparation is used as an Aperient Anti-Acid in Dyspeptic complaints, attended with acidity, with very great benefit. It has the advantage over common Magnesia, in being dissolved, and therefore not liable to accumulate in the bowels. It is decidedly superior to Carbonate of Soda or Potash, on account of its aperient quality.

This solution of Magnesia is found particularly beneficial as a pleasing sedative and aperient, in all cases of irritation or acidity of the stomach, febrile complaints, infantile disorders, or SEA SICKNESS.

An ounce or two of this solution speedily removes heartburn, acid eructations and soreness, or irregular digestion.

The solution is of itself an aperient, but its laxative properties can be much augmented by taking with it, or directly after it, a little lemon juice, mixed with sugar and water, or even cream of tartar; in this manner a very agreeable effervescent draught can be safely taken at any time during fever or thirst.

The antiseptic qualities of this solution, owing to the presence of so much carbonic acid, have been found very valuable in putrid and other fevers. As a lotion for the mouth, it sweetens the breath, and the Magnesia clears the teeth from tartar.

The solution has almost invariably succeeded in removing the fits, spasms and headaches to which delicate persons are subject from acids and crudities of the stomach and bowels.

TESTIMONIALS.

PROVIDENCE, Nov. 20, 1848.

Mr. S. O. DUNBAR,—Dear Sir:—I am happy to hear that your preparation of Fluid Magnesia is coming into general use. While it is more economical than other preparations of Fluid Magnesia, I have found it vastly more efficient, and not only an antiseptic and anti-acid upon the stomach, but a very considerable tonic. It is a beautiful medicine for the bowel derangement which so often afflicts young children, and for females of debilitated and sour stomachs, particularly those "enciente," it is invaluable. Being a scientific preparation and open to the profession, it needs only an acquaintance to become with them a favorite medicine.

Yours truly,

WM. GROSVENER, M.D.

BOSTON, Sept., 1843.

S. O. DUNBAR,—Having used your Fluid Magnesia freely in my family for the past two years, am happy to recommend it as containing all the properties of the best Magnesia in a liquid form. It adapts itself admirably to the stomach, producing a slight and very easy cathartic and corrective.

Very respectfully yours,

JOHN L. HUNNEWELL, Druggist.

ANALYSIS OF BELLADONNA PLASTER BY PROF. R. O. DOREMUS.

BELLEVUE HOSPITAL MEDICAL COLLEGE, NEW YORK, Sept. 7, 1878.

Gentlemen,—I obtained from Messrs. W. H. Schieffelin & Co. of this city, samples of Belladonna Plasters, prepared by Grosvenor & Richards, Boston; Mitchell Novelty Plaster Works, Seabury & Johnson, New York and London. I have examined these varieties for the purpose of determining which possesses the largest quantity of Atropine. I employed equal surfaces of each, and my analysis demonstrated that *Seabury & Johnson's* contains the greatest proportion of the active principle of Belladonna, and is the most reliable Plaster.

Messrs. SHAFER & HAMILTON:

Gentlemen:—Desiring to produce a line of Candies flavored with the Pure Juices of Fruits we tested the bottled juices put up by various parties, and found that *none* of them would yield a fresh flavor, and all of them became

acid on exposure to the air. Hearing of your articles, we gave them a trial, and have continued to use them with the best success, as all who have tested our delicious Fruit Candies will testify. The *fresh flavor of the fruits*, in all their delicacy, is retained in the juices put up by you.

Yours truly,

P. B. HOWLAND.

Secretary U. S. Confection Co.

MR. I. C. SHAFER, New York.

NEW ORLEANS, Feb. 13, 1871.

Dear Sir.—The Fruit Juices, etc., I have received from you have given fullest satisfaction to the parties purchasing them. They retain their pure flavor without change in our climate, and are the best I have seen.

Yours very truly,

T. J. WATERMAN.

Dealer in Soda Water Apparatus and Materials.

404 OLIVER STREET, ST. LOUIS, MO., May 23, 1877.

MR. I. CALVIN SHAFER, New York:

Your Juices are the best I have used. I have heretofore used mostly the French.

P. P. BROWN

Manufacturing Confectioner.

TO THE TRADE.—After twelve years' experience in competition with all the foreign and domestic *Fruit Juices*, I am fully satisfied that a reference to a few of the testimonials attached hereto will convince the most sceptical that our goods stand without a peer in this country, and to all who desire to produce a fine beverage from Soda Water, or Ice Water, they offer, in addition to their delicate and marked fruit flavors, the following advantages, which at once commend them to all dealers, regardless of price:—

They are made entirely from our most carefully selected and highest flavored domestic fruits: and by a process peculiarly our own, *will not ferment, whether exposed to the air or otherwise in any climate*. They derive their rich and beautiful colors entirely from the fruit, and therefore *contain no artificial or deleterious coloring matter*, and are always *clear and transparent and entirely free from sediment*—the common and inevitable fault of all other fruit juices put up by the air-tight process.

They need no boiling with sugar or filtering, and if your simple syrup is clear, the simple addition and mixing of our juices in the proportion required (one part of juice to five of simple syrup) completes your manufacture of rich, clear and transparent Fruit Syrup, at a great saving of time, labor and annoyance. Thanking you for your many past favors, I would ask your continuance.

Respectfully,

I. CALVIN SHAFER.

TO CONFECTIONERS.—I have prepared, this year, a line of Juices exactly double the strength of the above, for flavoring Ice Cream, Cake, and Candies. Price per gallon, \$6.00. Per dozen quarts, \$18 00. Order CONFECTIONERS' JUICES.

TESTIMONIALS.

MONTCLAIR, N. J., February 9, 1879.
MY DEAR MR. SHAFFER:—I testify with pleasure to the value of your "Medicinal Blackberry Brandy," which I was induced to try by your statement (in which I place the utmost confidence) that it was composed essentially of *good Brandy*, with a definite quantity of Fluid Extract of Blackberry Root. You can well depend on the excellence of the articles which enter into its composition, for your success in obtaining orders when once it is known that you have unequalled facilities for obtaining the best materials and the disposition to make the best use of them. Very truly yours, J. W. PINKHAM, M. D.

MR. I. CALVIN SHAFFER: 218 & 220 Greenwich St., New York, Feb. 18, 1879.
Dear Sir:—We have sold your "Medicinal Blackberry Brandy" for the past three years, with entire satisfaction to our trade, and believe it to be the best article of its kind in the market. Yours truly, HALL & RUCKEL, Wholesale Druggists.

MR. I. CALVIN SHAFFER, 76 Cortlandt St., N.Y. MONTCLAIR, N.J., Dec. 15, 1877.
Sir,—Being afflicted with a severe attack of *Summer Complaint* in the month of August last, I procured a bottle of your "Medicinal Blackberry Brandy," and used it with the most gratifying results. I gave a part of it to one of my friends troubled with the same difficulty and it, as in my case, speedily effected a permanent cure. I regard it as a very valuable medicine. Very respectfully yours, MASON LOOMS, Civil Engineer.

I. CALVIN SHAFFER, New York City. 111 Broadway N. Y., Feb. 15, 1878.
Dear Sir.—I had a physician's daily attendance for some time last summer, on a boy of eighteen months old, who was suffering from *Cholera Infantum*. I was directed to your place of business to purchase Brandy, which led to your suggesting (after my informing you of the case), a trial of your "Medicinal Blackberry Brandy." Had I secured such a relief at the outbreak of the disease, the terrible suffering, the sympathetic watching and the heavy expense would have been saved. I look at my little fellow now enjoying good health, and consider that I have every reason to feel grateful for the suggested trial and the wondrous cure it effected,—a life saved, that for weeks I despaired of. It gives me great pleasure to recommend it, and I can assure you of my unbounded appreciation of its efficacy.

Yours very truly, GEO. O. WHEELER, Architect.

MR. I. CALVIN SHAFFER. JERSEY CITY, N. J., Feb. 20, 1879.
Dear Sir.—We have been selling your "Medicinal Blackberry Brandy" for the past three years with great satisfaction, and believe it to be an excellent remedy for Diarrhoea, and the best article of its kind in the country. Very truly yours, TURNER & BENNELL, Dealers in Fine Teas, Wines and Groceries.

MR. I. CALVIN SHAFFER. NEWARK, N. J., Jan. 20, 1879.
Dear Sir,—During the past season I purchased several bottles of your "Medicinal Blackberry Brandy" for use in my family and among my employees as a cure for Diarrhoea, and have found in every case that it effected a speedy cure, and I think that every family would do well to keep a bottle of it on hand, as I certainly shall.

Very respectfully, PAUL BUCHANAN.

which has been growing and solidifying for more than ten years. It cannot be thrust aside, put down, or ignored, any more than any other law of nature.

Absorption is nature's own law, and as applied to treating disease, has never been perfectly illustrated as in the remedies of the Holman Liver Pad Company.

The Holman Liver Pad.

The Absorptive Plasters and Absorption Salts.—The Absorptive Plaster stimulates and equalizes the circulation, removing local obstruction and inflammation.

Absorption Salts for Foot and Hip Baths.—Its effect is wonderful as an assistant in removing obstructions and inflammations; as in colds, cold extremities, fevers of every form, pains, numbness, and in creating perfect circulation.

Desiring to make the inducement to handle **PAIN-KILLER** equal to all Wholesale Dealers, and especially to encourage those located at the more remote points, we make a deduction on bills designed (but not guaranteed) to cover the cost of freight. Our object in this offer is to make the cost of **PAIN-KILLER** laid down at all the principal centres of trade, as nearly uniform as may be.

The estimates of the cost of freight have been made from a careful examination of the various Freight Tariffs to the different points, and there will not be any deviation from the quoted allowance, even in case the actual cost of transportation proves to be more or less than the allowance.

OF MORE VALUE THAN GOLD.

ADAMSON'S BOTANIC COUGH BALSAM,

THE GREAT REMEDY FOR CURING

Coughs, Colds, Asthma, Hoarseness. Spitting of Blood, Bronchitis, Loss of Voice, Whooping-Cough, Influenza, Soreness of the Throat, Chest, and Lungs, and all Diseases leading to Consumption.

It will not make new lungs, but will prevent the disease from spreading throughout the whole substance of the lungs, therefore facilitating recovery.

Having been in the medicine business for more than twenty-five years, I have long felt the need of a **Safe and Effectual Cough Remedy**. This having been my experience, I have for five years or more been engaged in producing a remedy which would stand on its own merits, and which I could recommend with confidence. This remedy I have at last discovered, and after retailing many thousand bottles over my own counter, with the most flattering results, I offer it to the public under the name of **ADAMSON'S BOTANIC COUGH BALSAM**. It is prepared from highly concentrated Vegetable Extracts, and Barks, Gums, and Roots of Wonderful Healing Properties, and this Balsam is highly recommended by eminent Physicians, Clergymen, and others, testimonials from whom I can furnish without number.

In addition to the many testimonials in regard to the efficacy of this Balsam, I refer to U. S. Senator Jas. G. Blaine, (chaplain C. C. McCabe, Chicago, Ill., Mayor Eveleth, Mrs. Col. Lang, Mrs. Col. DeWitt, Rev. Wm. A. Drew, Rev. C. W. Penney, Col. Thos. Lambard, Rev. E. H. W. Smith, E. H. Cushman, President Granite Nat. Bank, W. H. Libby, Dep. U. S. Marshal, S. W. Wyman, James E. Field, Druggist, Alpena, Mich.

From George C. Goodwin & Co., N. E. Patent Medicine Warehouse, 36 and 38 Hanover Street, Boston.

Parties have been in and bought Adamson's Botanic Cough Balsam the second time, and all pronounce it one of the very best medicines in the market for coughs and colds. Some of our men have used Adamson's Botanic Balsam, and say it is the best thing they have seen for coughs and colds.

\$5,000 REWARD. Every Testimonial we publish of Adamson's Botanic Cough Balsam is genuine. We will pay a reward of Five Thousand Dollars for evidence proving otherwise in a single case. **F. W. KINSMAN & CO., Augusta, Me.**

DON'T FAIL TO TRY IT! IT IS PLEASANT TO TAKE, AND WORKS LIKE A CHARM.

BEWARE OF IMITATIONS! Inquire for **ADAMSON'S BOTANIC COUGH BALSAM**. Take no other. See that the name of **F. W. KINSMAN** is blown on the bottle.

We have for many years claimed superiority for the **MEDICINAL PREPARATIONS OF OUR MANUFACTURE AND THE ARTICLES WE CONTROL**, over similar products made by other houses.

We make no claim for proprietorship in regard to our goods. We only assert the excellent quality of the material employed, and the skill and accuracy with which they are manufactured. Our labels give the exact contents and combination of each preparation. They are manufactured and intended for administration through the Medium of the Medical Profession exclusively. All of our products, as also those for which we are agents, are now dispensed by all the leading Druggists, and are regularly prescribed by a large majority of the Physicians of America and Great Britain, being preferred on account of their superior quality, strength, elegance, and agreeable flavor. Both at the Centennial Exhibition in Philadelphia and at the Exposition in Paris we were awarded the highest testimonials for Progress in Pharmacy, Superiority of Manufacture, Precision in Admixture, and quality of material employed.

Price Lists and Descriptive Catalogues of all our products will be sent free of charge to any section of the country upon application. Special information in regard to any article of our manufacture will be gladly furnished to those who may desire more minute particulars.
